

Le Sueur, MN - March 1, 2021

Dear Scott's-Bell 47, Inc. Customers,

It is with regret that we announce SB47's General Manager, Frank Hoffmann, leaving full time employment with the company on March 31, 2021 to pursue another opportunity. Mr. Hoffmann has successfully led and managed SB47 since early 2014 and, besides manufacturing a multitude of new PMA parts, also managed the SB47 Type Certificates and Supplemental Type Certificates. Despite leaving his full time position with SB47, Mr. Hoffmann will continue to serve with the company as the FAA Accountable Manager until at least the point when all parts currently on outstanding purchase orders have been received, inspected and placed into inventory. We are very grateful to Mr. Hoffmann for his contributions to the company, for keeping the fleet of Bell 47's flying, and wish him only the best for his future endeavors.

Over the course of the last years, we had to observe an erosion of Bell 47 parts sales. We are attributing this mainly to a transition from fleet-operated Bell 47 helicopters towards the individual, private recreational flyer.

As a direct consequence, we have made the challenging decision to no longer pursue the manufacturing of certain Bell 47 PMA parts effective mid-2021. Please be advised, however, that our inventory is well stocked to supply your part demands for the next years to come.

Parts sales to the public will continue as usual, please contact us at parts@scottshelicopter.com or by phone at 507-665-6149.

We would like to express our most sincere thank you for your continued support.

Scott Churchill
-President-
